

Warehouse Point Library has added new online resources to its website that are free (no library card required) for children and adults.

Resources include math, reading, physical education, and science to name a few.

The resources can be found at <http://www.warehousepointlibrary.info>. Under the heading online resources, those listed under open resources do not need a library card.

In addition, the library director is working to get temporary library cards available through the website for families that do not currently have a library card, but may be interested in accessing online resources that require a card.
