March 12, 2021

Dear Parent/Guardian,

The information below will assist you in completing the medical portion of your child's preschool registration. **Parents must** complete the **front page** of the state preschool health assessment record. Your pediatrician will complete **page 2** of this form after the physical exam. Every box must be filled in on this page, including the **lead level, risk of TB exposure and hematocrit**. Children have a lead level completed between the ages of 1 and 2 years old. Your physician or the medical assistant must look back in your child's health record and write the lead level that was completed at that time on the form. If your child did not have one done, your physician must order one and provide the school with the results. Your dentist or dental hygienist must complete **page 3** of this form. Your child's preschool health assessment record which includes the **physical and oral exam** must be completed within twelve months of entry to school so the updated health assessment will be completed between anytime July 1, 2020 and July 1, 2021.

Your pediatrician must also include your child's immunizations with this form on **page 4**. **Along with all the required immunizations, preschool students must also have an influenza vaccine given between August 1st of 2021 and December 31st of 2021**. It is your right to refuse immunizations for medical or religious reasons. If you decline immunizations for medical reasons your physician must complete the required state form. If the refusal is religious, new state law requires parents to complete the state exemption form with completed signatures from the noted professionals on the form. School nurses **will not** sign for religious exemptions in the East Windsor Public Schools.

No child will be registered for school without all three pages of the health assessment record completed and proof of immunizations on file.

Our School Based Health Center at the Broad Brook Elementary School is open on Tuesdays and Thursdays if your child requires a physical exam or immunizations. You may contact the Medical Assistant, Karen Lockery, to make an appointment for a physical exam or immunizations at 860-623-2433 ext. 5155.

The preschool health assessment record is located on our school website under the health tab or central registration tab. Please print the form and bring it to your child's physician at the time of your child's physical exam. If you are unable to print the form please call us so we can mail one to you. If you have any questions please contact the school nurse, Christie Michaud at 860-627-4986. The confidential fax number for your physician to fax completed information is 860-386-6058.

Sincerely,

Wendy Gage RN BSN NCSN
