## **East Windsor Public Schools Solidifies Leadership Team**

*Board of Education approves assistant superintendent, special education coordinator nominees*

During the Board of Education meeting on Wednesday night, the Board of Education named East Windsor Public Schools' veteran Darryl Rouillard as the new Assistant Superintendent of PreK-12 Instruction. They also appointed Deidre Osypuk, Ph.D., as the new Director of Special Education. Osypuk joins the EWPS leadership team from Regional District #11 in Chaplin, Connecticut.

"I'm very happy that we've filled these two important positions with the best candidates for our schools," said Dr. Patrick Tudryn, Superintendent of Schools of EWPS. "Mr. Rouillard has been instrumental in moving our district forward since 2014, and Dr. Osypuk brings a great deal of experience and knowledge to an important part of East Windsor's student population."

Rouillard's commitment to continuous improvement and dedication to the success of all students in East Windsor is the best fit to carry forward instructional leadership in East Windsor. While Director of Curriculum and Instruction, Rouillard has led the development of EWPS's Portrait of the Graduate, spearheaded the adoption of a new mathematics curriculum, and implemented new district-wide assessment tools that have helped increase student performance. Rouillard previously served as assistant principal at both East Windsor Middle School and East Windsor High School. He has earned his M.S. in Educational Leadership from Central Connecticut State University and his Superintendent of Schools Certification from Sacred Heart University.

As the new Director of Special Education, Osypuk is a newcomer to EWPS. She served in various student support and special education roles since 2000, most recently in Region School District #11. There she oversaw special education for two districts in grades PreK-12, developed and directed special education and 504 programming, and ensured compliance with state, federal, and local agencies. Osypuk has led similar programs throughout her career. She earned her Ph.D. in School Psychology from the University of Connecticut in Storrs and a Diploma in School Neuropsychology from Kids, Inc. in Holy Lake Ranch, Texas.

"Our goal in all of our schools is to make a difference in the lives of our students, staff, and families in East Windsor." Said Tudryn. "I'm looking forward to collaborating with Mr. Rouillard, Dr. Osypuk, and our whole central office team in pursuit of this goal."
