

State Contracted Testing Locations

We have heard inquiries from superintendents about the location of COVID testing site locations with quicker turnaround times. This serves as an update to the information provided in the 10/19/20 communication regarding state contracted testing partners. State contracted testing partners have required turnaround *times not to exceed 48 hours from receipt of sample to test result*. This contractual obligation applies to any testing event held by these partners that is open to the community (therefore, for example, the contractual obligation applies to community events open to the public for free testing, but does not apply to pre-procedure testing). Follow this link to access the list ct.gov/prioritytesting; enter a ZIP code, and click "Go." This will take you to a 211 site customized to only show state-contracted testing locations near you. Please feel free to share this information with your school community.
