

MS Curriculum Overview

1. Course Title	5th Grade Science			
2. Course Overview	<p><i>In 5th grade science, students will use the Mystery Science curriculum to explore engaging, hands-on investigations about the natural world. Throughout the year, students will study topics such as ecosystems, Earth's systems, matter, energy, and the interactions between living things and their environments. By asking questions, conducting investigations, analyzing evidence, and solving problems, students will develop critical thinking, collaboration, and communication skills. These experiences help students make connections between science concepts and real-world situations while fostering curiosity and a deeper understanding of how the world works.</i></p>			
3. Main Resource Used	Mystery Science			
4. Unit Sequence & Titles	<p><i>Unit 1</i></p> <p><i>Earth and Space Patterns</i></p>	<p><i>Unit 2</i></p> <p><i>Stars and Planets</i></p>	<p><i>Unit 3</i></p> <p><i>Chemical Reactions and Properties of Matter</i></p>	<p><i>Unit 4</i></p> <p><i>Ecosystems and the Food Web</i></p>
	<p><i>Unit 5</i></p> <p><i>Water Cycle and Earth's System</i></p>
