

# MS Curriculum Overview

<b>1. Course Title</b>	<b>Integrated Math 1</b>			
<b>2. Course Overview</b>	<i>In Integrated Math 1 with Illustrative Mathematics, students explore algebra, geometry, statistics, and functions while strengthening their problem-solving and reasoning skills. They learn to analyze data, model real-world situations, and explain their thinking, helping them make connections between mathematics and everyday decision-making while preparing for future math courses.</i>			
<b>3. Main Resource Used</b>	Illustrative Mathematics			
<b>4. Unit Sequence &amp; Titles</b>	<b>Unit 1</b> <i>Constructions &amp; Rigid Transformations</i>	<b>Unit 2</b> <i>Congruence</i>	<b>Unit 3</b> <i>One Variable Statistics</i>	<b>Unit 4</b> <i>Linear Equations &amp; Systems</i>
	<b>Unit 5</b> <i>Coordinate Geometry</i>	<b>Unit 6</b> <i>Two Variable Statistics</i>	<b>Unit 7</b> <i>Linear Inequalities &amp; Systems</i>
